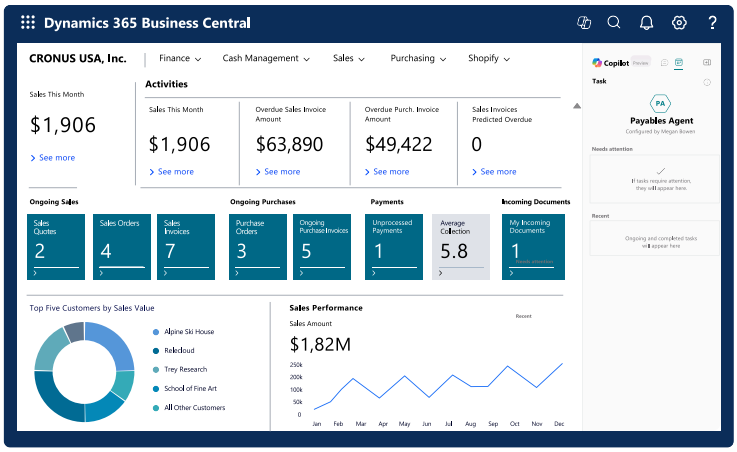
We confirm the scope with you on the call.



SUITED TO

- Trading companies
- Wholesale distributors
- Import and export businesses

Business Central, the platform behind Jumpstart ERP Trade.

01

Fixed scope

Finance plus sales and purchase orders, inventory and order fulfilment set up and loaded.

02

Fixed time

Six stages from kick-off to go live. You always know the day and the next step.

03

AI included

Microsoft Copilot Payables Agent and Sales Order Agent, and PRIME Supplier Risk Agent.

HOW WE DELIVER

Kick-off to go live in 10 weeks.

One method. Six stages. You do the business work and we do the system work.

01 DAY 1 — Kick-off and provision

YOU
Confirm the package and owners.

WE
Run the meeting and set up your Business Central.

02 DAY 2–21 — Prepare

YOU
Complete our Excel templates.

WE
Guide you through each field.

03 DAY 22–29 — Load

YOU
Supply source reports.

WE
Import, validate and reconcile opening balances.

04 DAY 30–39 — Learn

YOU
Key users attend role-based training.

WE
Train on the modules, the Copilot agents and PRIME.

05 DAY 40–50 — Test

YOU
Run real scenarios and sign off.

WE
Fix every finding.

06 DAY 51–70 — Go live

YOU
Work in Business Central.

WE
Stay beside you through go-live.

Included in the fixed price

+ Implementation with data migration, training and testing
+ Finance, sales and purchase orders, inventory and fulfilment
+ Payables, Sales Order and PRIME Supplier Risk Agents
+ One Microsoft 365 Copilot Business licence for one nominated user in Year 1

Charged separately

– Business Central Essentials licences for all users
– Work outside the fixed scope
– Support after go-live
– Copilot Credits used by AI agents

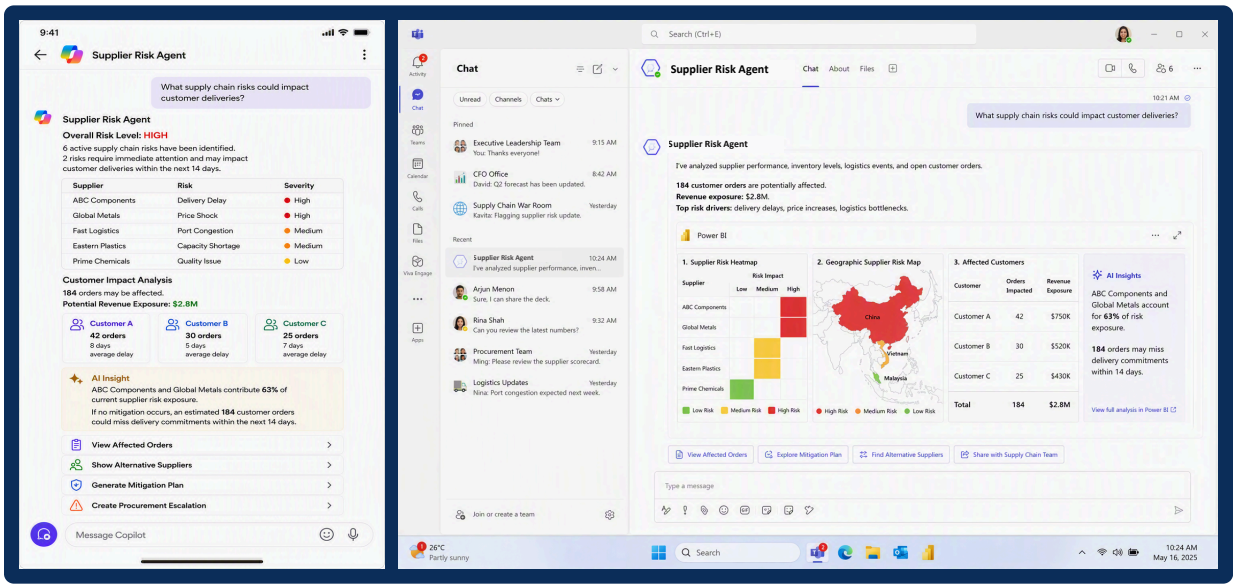
From Year 2 you renew Business Central and Microsoft 365 Copilot Business licences per user per year.
Our Application Management Services keep your system running after go-live.

ASK PRIME SUPPLIER RISK AGENT

“What supply chain risks could impact customer deliveries?

$2.8M

$2.8M revenue at risk. 184 customer orders may be affected. ABC Components and Global Metals make up 63% of current supplier risk. That is the answer PRIME gave in our example. It read the live Business Central data and recommended mitigation.



STEP 1

Ask

Type a supply chain question in plain language. Use Teams or Copilot Mobile.

STEP 2

Analyse

PRIME monitors supplier delivery reliability, price changes and spend concentration.

STEP 3

Act

PRIME recommends mitigation, such as alternative suppliers. You decide.

Payables Agent

Captures supplier invoices, extracts the key information and prepares purchase invoices for you to review. Your team stops retyping invoices.

Sales Order Agent

Reads customer emails, matches the customer and items in Business Central and drafts the sales order for you to review.

Copilot, free in Year 1

Copilot works across the Microsoft apps your team already uses.

AI agents use Copilot Credits. You can buy credits as prepaid capacity or pay as you go.

SELECTED CUSTOMERS

One platform, four industries.

Trade teams use Business Central to fulfil orders, track stock and route approvals.

FashionValet

FASHION E-COMMERCE · MALAYSIA

One inventory for online and store orders.
