- Finance-focused organisations

Business Central, the platform behind Jumpstart ERP Finance.

01

Fixed scope

General ledger, payables, receivables and fixed assets, set up and loaded.

02

Fixed time

Six stages from kick-off to go live. You always know the day and the next step.

03

AI included

Microsoft Copilot Payables Agent and PRIME Executive Insight Agent.

HOW WE DELIVER

Kick-off to go live in 8 weeks.

One method. Six stages. You do the business work and we do the system work.

01	DAY 1	Kick-off and provision	YOU Confirm the package and owners.	WE Run the meeting and set up your Business Central.
02	DAY 2–15	Prepare	YOU Complete our Excel templates.	WE Guide you through each field.
03	DAY 16–30	Load	YOU Supply source reports.	WE Import, validate and reconcile opening balances.
04	DAY 31–38	Learn	YOU Key users attend role-based training.	WE Train on the modules, Copilot and PRIME.
05	DAY 39–46	Test	YOU Run real scenarios and sign off.	WE Fix every finding.
06	DAY 47–56	Go live	YOU Work in Business Central.	WE Stay beside you through go-live.

Included in the fixed price

+ Implementation with data migration, training and testing
+ General ledger, payables, receivables and fixed assets
+ Payables Agent and PRIME Executive Insight Agent
+ One Microsoft 365 Copilot Business licence for one nominated user in Year 1

Charged separately

– Business Central Essentials licences for all users
– Work outside the fixed scope
– Support after go-live
– Copilot Credits used by AI agents

From Year 2 you renew Business Central and Microsoft 365 Copilot Business licences per user per year.
Our Application Management Services keep your system running after go-live.

ASK PRIME EXECUTIVE INSIGHT AGENT

“What are the top business risks I must focus on?

72/100

High risk. $3.52 million of potential impact. Liquidity is the top concern. That is the answer PRIME gave in our example. It read the live Business Central data and explained why.

STEP 1

Ask

Type a business question in plain language.

STEP 2

Analyse

PRIME scores risk across liquidity, AR, AP, aging and cash flow.

STEP 3

Act

You get a cash forecast and a recommended action to review.

Payables Agent

Captures supplier invoices, extracts the key information and prepares purchase invoices for you to review. Your team stops retyping invoices.

Copilot, free in Year 1

Copilot works across the Microsoft apps your team already uses.

AI agents use Copilot Credits. You can buy credits as prepaid capacity or pay as you go.

SELECTED CUSTOMERS

One platform, four industries.

Finance teams use Business Central to close books, track funds and control costs.
