WHAT IS BUSINESS CENTRAL

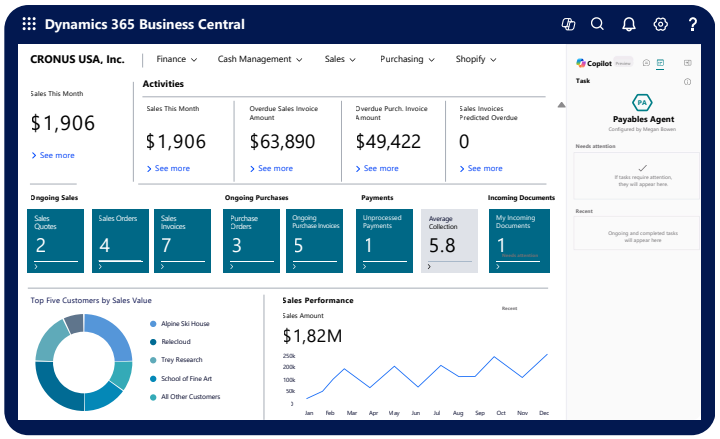

One Platform for Your Core Operations

Microsoft Dynamics 365 Business Central is the cloud ERP every Jumpstart package runs on. You see your numbers in real time, not in spreadsheets.

Real-time visibility
Live financial and operational data.

Reports and controls
Reports and workflows to track results.

AI and Microsoft tools
Copilot, PRIME AI and Microsoft apps.

HOW JUMPSTART ERP WORKS

From Kick-off to Go-live in 7 Steps

1. **Kick-off meeting**
   We confirm package, timeline, owners and data needs.
2. **Provision**
   We set up your Business Central environment.
3. **Prepare**
   You agree master data and opening balances.
4. **Load**
   We import your data and check it with you.
5. **Learn**
   We train your key users.
6. **Test**
   Your team tests the system and signs off.
7. **Go live**
   You start working in Business Central.

What we need from you

- A project lead and key users
- Master data and opening balances
- Testing and sign-off
- Key users who train your staff

We handle the rest.
