WHAT IS BUSINESS CENTRAL

One Platform for Your Core Operations

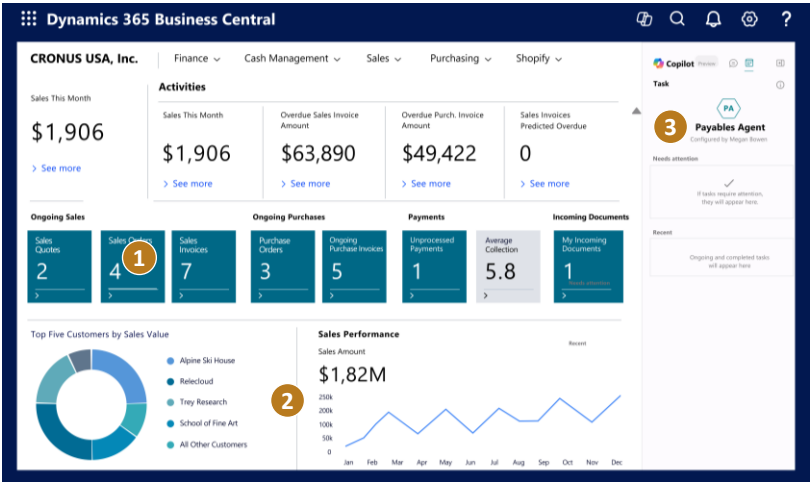

Microsoft Dynamics 365 Business Central is the cloud ERP platform every Jumpstart package runs on. It gives you real-time visibility instead of relying on static spreadsheets.

- 1 **Real-Time Business Visibility**

View current financial and operational information in real time.
- 2 **Reporting and Business Controls**

Monitor performance and maintain control through reporting and workflows.
- 3 **Microsoft AI and Integration**

Extend Business Central with Microsoft Copilot and PRIME agentic AI, and familiar Microsoft tools.

GO-LIVE FASTER

A Simpler Route to Business Central

Drawing on experience from more than 300 projects across Asia-Pacific, 9 Dots Consulting turned common finance, trading and assembly requirements into a pre-configured system with clear responsibilities and reusable data templates. The result is a faster, more predictable path to go-live.

- 1 **STANDARD FOUNDATION**

Established processes without unnecessary complexity.
- 2 **FIXED SCOPE**

No custom development within the Jumpstart implementation.
- 3 **GUIDED DELIVERY**

Clear activities, ownership and outputs at every stage.
- 4 **KNOWN TIMELINE**

Structured implementation targeting 8–12 weeks, depending on package.
